## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Marlow:

I herewith submit my fourth report as superintendent of schools.

### Organization and Enrollment

Miss Rita Leonard was elected to fill the vacancy in the upper grade position which was caused by the resignation of Mrs. Lovejoy. Miss Leonard is a graduate of the three year curriculum at Keene Normal School.

The program of standard diagnostic tests which was begun last year will be continued with a few changes. In accordance with the program as outlined every pupil will be thoroughly examined for deficiencies in silent reading, fundamental processes in arithmetic, and language usage.

A grade standard has been established for each subject tested and the tests are especially designed to point specifically to types of deficiencies.

The real value of the testing program depends upon the thoroughness of the subsequent corrective work which is done by the teachers. Retests were given last year in several schools of the union after a period of remedial instruction. The results indicated a very fair percentage of correction.

The continued use of a testing program of this nature will influence the efficiency of instruction and will indicate where emphasis should be placed in teaching the fundamentals.

Standard tests, however, are only rough estimates of the effectiveness of the general education of our pupils. We are primarily interested in the growth of our young people in ideals, attitudes, and habits. These traits are not measurable by any tests now in use, but

## Health

### Report of School Nurse:

All the children received a health inspection by the school nurse during the Fall months. This is not a detailed examination such as a private physician would give in his office, but it covers the outstanding defects from which a child may be suffering.

37 pupils were inspected.

3 pupils have defective vision.

7 pupils were poorly developed and nourished.

4 pupils have nervous habits.

4 pupils seem to have anemia.

5 pupils have enlarged tonsils.

2 pupils have defective breathing.

17 pupils need dental care.

All the parents of the above children were notified of the defects. The nurse usually calls at the home as a matter of course to talk things over, for the correction of defects is more important than many parents realize.

Your school nurse wishes to thank parents and school officials for their kind support in the school health work.

ZEPHYRINE I. HASHAM

## Building and Equipment

As a result of an improvement program conducted over a period of several years, the school building is now in excellent condition.

During the summer the desks in both rooms were top dressed with furniture oil, six new screens were supplied for the windows, and repairs were made on the chemical toilets.

Twelve kindergarten chairs have been purchased for use with the reading classes in the lower grades. These will also be used with the library reading group which is being organized in the primary room.
